The project

Project: 50/50 EUROPEAN NETWORK OF EDUCATION CENTRES

Program: Intelligent Energy – Europe (IEE)

Duration (in months): 36 (23rd May 2009 – 23rd May 2012)

Budget: 1.049.678€

Partners: 9 partners from 9 countries:

Participant name	Country
Barcelona Provincial Council	Spain
Independent Institute for Environmental Concerns	Germany
Local Agency for Energy and Environment	Italy
University of Vaasa	Finland
Lake Balaton Development Coordination Agency	Hungary
Almada City Council	Portugal
Association of municipalities Polish Network "Energie Cites"	Poland
Prefecture of Heraklion	Greece
Energy agency of Savinjska, Šaleška and Koroška region	Slovenia

The 50/50 Concept

Objective: to apply the 50/50 methodology to 50 educational centres, creating a European network of schools aiming for energy savings and fighting against climate change.

Target: mainly primary schools across Europe.

The 50/50 methodology:

- Based on Germany's experience (the 50/50 concept was created in Hamburg in 1994)
- Objective: to **share economic incentives for saving energy** between the schools and the municipalities: 50% of energy savings achieved from the energy efficiency measures taken by the pupils and teachers are returned through a financial payout. The other 50% will be a net saving for the public authority that pays the bills.
- **Everyone wins:** the school gets additional financial resources, and the public authorities have less energy costs and energy efficient schools contributing to local energy and climate change targets.

50/50 Schools

The EURONET 50/50 project will create a network with at least 50 schools on a European level (throughout the 9 countries that will take part in the project); the effort of each partner is shown in the table:

Country	N°Schools	Country	N°Schools
Finland	5	Italy	5
Portugal	5	Poland	6
Hungary	6	Greece	3
Spain	13	Slovenia	5
Germany	2	Total	50

Expected results

- Increase **knowledge** on energy use in educational centres
- **Methodological Guide** to the application of 50/50 in different countries in Europe
- **E-pack**: educational materials and resources for 50/50 implementation
- **Network of 50/50** educational centers around Europe
- Distribution of **economic benefits** of energy savings in the 50/50 education centers
- Engaging educational community and other relevant stakeholders on **energy savings**

Pupils as drivers of change!
